

# "HARVARD STARS"

## *Harvard Administrators' Forum New Lecture Series*

You are cordially invited to attend the fourth lecture in a new series called "Harvard Stars." This series is designed to give administrators throughout the University an opportunity to hear lectures by Harvard's renowned faculty, just as students do.

\*\*\*\*\*

**Professor Daniel P. Schrag**

Department of Earth and Planetary Sciences, Harvard University

## **"Global Climate Change: Ancient Views on Future Climate"**

**Tuesday, March 21, 2006  
Barker Center 110, 12 Quincy Street, Cambridge  
9:00-10:00 A.M.**

Daniel P. Schrag, director of the Harvard Center for the Environment, is an expert on global warming and teaches courses on the history of the Earth, geochemistry, oceanography, and climatology.

RSVP (seating is limited) to Fran Feldman at [ffeldman@fas.harvard.edu](mailto:ffeldman@fas.harvard.edu) and use the subject title "HAF Speaker." The talk will begin promptly at 9:00.

**We look forward to seeing you!**

The Harvard Administrators' Forum is a voluntary organization of administrators dedicated to finding ways to share information across school and departmental boundaries. The presentations are open to all administrative and professional staff. If you know of anyone who did not receive this invitation, please extend it on our behalf.
